

Drawing Notes:

All substrates should be primed or prepared in accordance with the project specification. Structural substrates shown in this drawing are for illustrative purposes only.

Note A:
Where a full bond to the substrate is required, or where ESTERDAN 30 P ELAST SEMIADHESVIO is used as the underlay, GLASDAN 800 PERFORADO does not form part of the system.

Note B:
The selected insulation should be suitable to withstand the anticipated live and dead loadings. Compressive strength and compressive creep information is available on product Technical Datasheets.

Note C:
Paving slabs should be a minimum 50mm thick.
