

The information contained in this document regarding to the method of use of **danosa** products or systems, is based on the knowledge acquired by **danosa** up to date. The products should be stored and installed according to **danosa** instructions and to the product data sheets published on our website.

The materials supplied by **danosa** will only be used for the purposes for which they were manufactured. In particular, **danosa** shall in no case be liable for damages (property or personal) arising from a defective, illegal or improper use of the materials and packaging supplied, as well as those damages arising from the defective condition of them as a result of improper storage or handling.

However, the proper functioning of the products depends on the quality of the application, as well as meteorological conditions and other factors beyond the scope of **danosa**.

All our products meet quality building standards. The packaging supplied is recyclable under provisions of art. 18 R.D. 782/98, of 30 April approving the Regulation for the development and execution of Law 11/1997 on packaging and packaging waste. The final holder of the product is the responsible for proper environmental management.

It is **danosa**'s right to change without notice, the data reflected in this documentation.
